AMPLIN
LINEAR HIGH BAY

IKIO's Amplin Linear High Bay is designed for a variety of spaces and mounting heights. Its wide-angle optics, along with multiple lumen packages and wattage options, make it ideal for replacing linear fluorescent and HID lamps in industrial and commercial settings.The recommended installation height is between 15-25 feet. This high bay uses tier-1 components and frosted lenses, reducing energy usage by up to 70% and providing a lifespan of over 7 years.

Applications: Ideal for Industrial Applications—Manufacturing Facilities, Warehouses, Gymnasiums, Athletic Facilities, Workshops, Large Areas

FEATURES

- **Exceptional efficacy,** ensuring smooth and uniform light output; **no flickering or humming.**

- **Sleek and low-profile design** makes it suitable for a wide range of applications.

- **With 75,000 life hours,** it helps you save up to 75% energy over conventional fixtures.

- **Superior heat dissipation** capability due to the use of an efficient heat sink.

- **Comes with built-in surge protection** that keeps the voltage in check.

Note: Warranty and Qualifications can vary per item, see technical data sheets (TDS) for specific information. • Not all product variations listed are DLC® qualified. Visit www.designlights.org/search to confirm qualification. • Published lumens on LED products are approximate and may vary slightly. • Specifications are subject to change without notice. • Photos and drawings may not be to scale and are for general reference only.
