LOCUS AREA LUMINAIRE

IMPORTANT SAFEGUARDS

WARNING, CAUTIONS AND OPERATING INSTRUCTIONS

Please find a qualified electrician for installation. Please read the instructions before you install and use the luminaire.

- To reduce the risk of death, personal injury or property damage from fire, electric shock, falling parts, cuts/abrasions, and other hazards, read all warnings and instructions included with and on the fixture box and all fixture labels.
- Before installing, servicing, or performing routine maintenance upon this equipment, follow these general precautions.
- Commercial installation, service and maintenance of luminaires should be performed by a qualified, licensed electrician.
- For the installation: If you are unsure about the installation or maintenance of the luminaires, consult a qualified licensed electrician and check your local electrical code.
- To prevent wiring damage or abrasion, do not expose wiring to the edges of sheet metal or other sharp objects.
- Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation.

• Do not cover any part of the fixture; this can cause overheating.

WARNING: RISK OF FIRE OR ELECTRICAL SHOCK

- Turn off electrical power at fuse or circuit breaker box before wiring fixture to the power supply.
- Turn off the power when you perform any maintenance.
- Verify that supply voltage is correct by comparing it with the luminaire label information.
- Make all electrical and grounded connections in accordance with the National Electrical Code and any applicable local code requirements.
- · All wiring connections should be capped with UL approved wire connectors.

CAUTION: RISK OF INJURY

- · Avoid direct eye exposure to the light source while it is on.
- · Account for small parts and destroy packing material, as these may be hazardous to children.
- · Suitable for wet locations IP65.

WARNING: DISCONNECT POWER BEFORE INSTALLING OR SERVICING.
